About us

GPL Obras y Proyectos is operating in the market since 30 years ago specialized in construction and comprehensive revamping in the industrial and commercial sectors.

GPL based in its experience is willing to offer tailor made solutions for a wide range of customers providing added value to all our projects to satisfy all needs and expectations.

Our expertise

We offer to both engineering and architecture companies our services from a multitask and full integrated service including legal and maintenance services provided by certified technicians.

We provide our own technical service in the fields of electricity (BT & MT), street lighting, telecommunications, domotic, fire fighting, water treatment, air conditioning and renewable energies.

OUR GOAL IS
SATISFIED CUSTOMERS

Our expertise

NEW CONSTRUCTIONS
CIVIL WORKS
REVAMPING
INDUSTRIAL & COMMERCIAL
EXECUTION

NEW CONSTRUCTIONS

GPL develops turnkey projects from residential to office buildings, unique buildings and single-family homes.

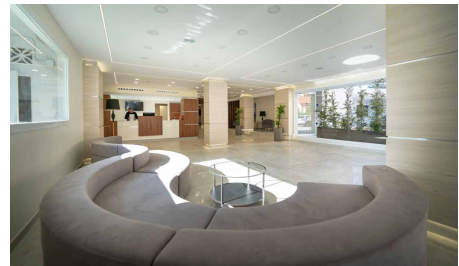

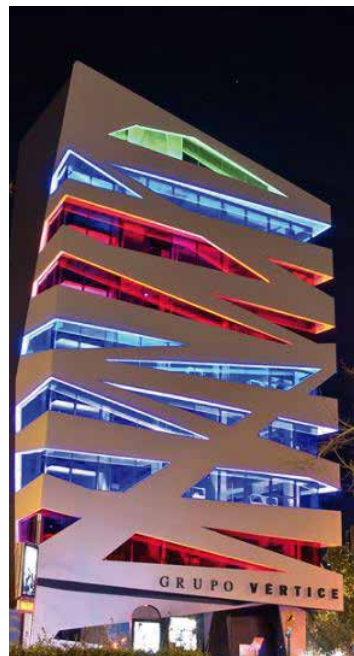

CIVIL WORKS

Paved asphalted pavements and public lighting are areas in which GPL is a specialist.

REVAMPING

In GPL we carry out integral renovations of buildings, offices, hotels, supermarkets.

INDUSTRIAL & COMMERCIAL

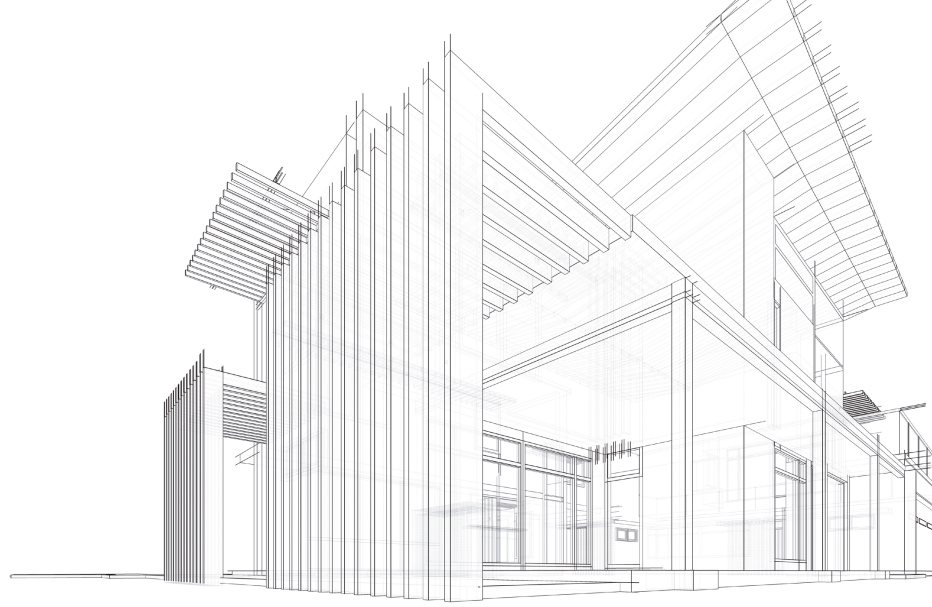

Commercial local industrial buildings and adaptation of spaces for your business.

EXECUTION

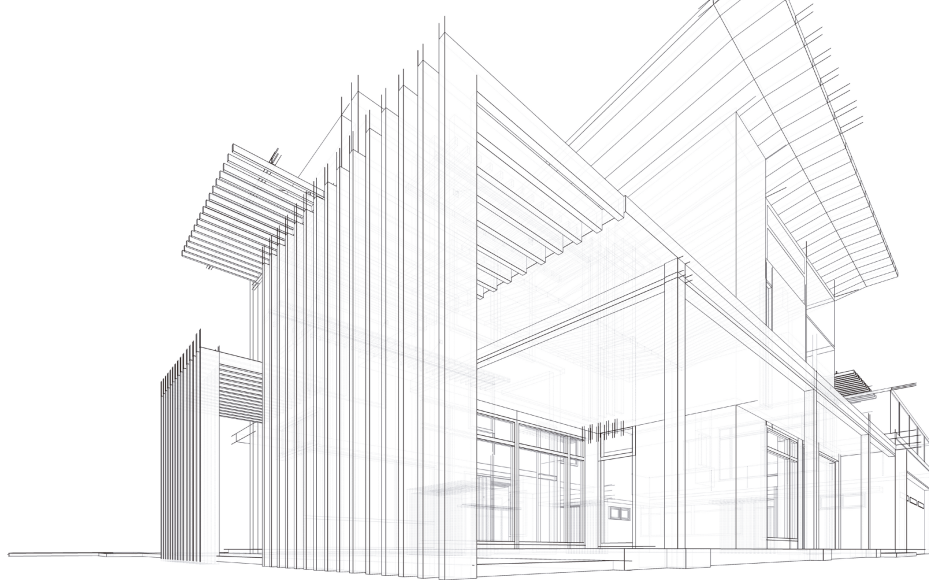

We have our own teams of installers of electricity, air conditioning, fire extinguishing and home automation.
